Collecting the HoNOS family of measures

Community/Inpatient transfers

Assessment only collection - Completed after one or two face-to-face contacts when people are not being admitted to a mental health service (community settings only).

Admission - Completed when people are admitted to a mental health service (community or inpatient setting).

Review - Completed after three months.

Ad hoc review - Can be completed at any time at the discretion of the clinician.

Discharge - Completed when people are discharged from a mental health service (community or inpatient setting).

For more information see the suite of HoNOS guides for New Zealand clinicians on the Te Pou website.
