

# Old ways won't open new doors

*Strengthening connections with people  
and outcome measurement*

 Do you discuss HoNOS ratings with people as part of your practice?

More than 190,000 **HoNOS collections** were made in 2016

Source: Ministry of Health, PRIMHD extract, 6 July 2017, analysed and formatted by Te Pou.

## Sharing HoNOS ratings as part of clinical practice should be routine

- Demonstrate partnership and shared decision making.
- Have recovery focused conversation; consider clinical significance, agree and plan goals and treatment options for progress.
- Discuss ratings given, reasons and explore perspectives in a therapeutic conversation.
- Review and discuss progress and changes over time.

 Would you like to know your ratings?

## People want to know how they're doing

- Their life
- Their journey
- Their treatment
- Their recovery
- Their information
- Their outcomes
