E-learning is a form of electronic self-directed learning that ensures everyone receives consistent, high quality learning experiences. It means you have the opportunity to complete essential training online on a PC, laptop or tablet – at your own pace and at a time that suits you.

E-learning is engaging and informative and uses a mix of short videos, narration, images/diagrams and quizzes to increase your understanding. Modules can be completed in one sitting or you can pause and return to a module – you control the pace.

Your e-learning courses are listed below. Enjoy!

Select the course you wish to do and click the 'Enrol me' button on the next screen.

You are now set up online and enrolled in the course. Click on the link text for your course to get started. Enjoy!
