

# Outcome report card for adult mental health services

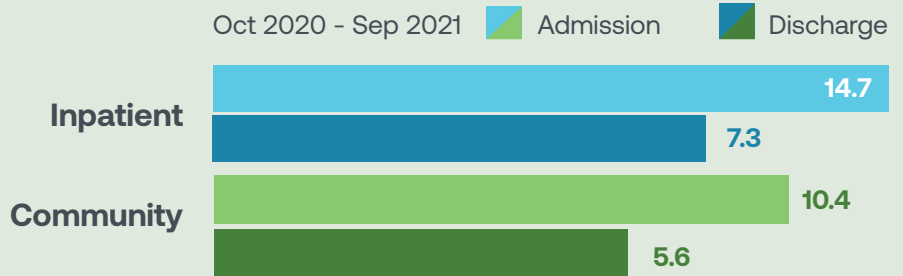

This infographic highlights results from the PRIMHD national summary report for HoNOS (Health of the Nation Outcome Scales) from October 2020 to September 2021. For more information see the **full report** and refer to the accompanying **user guide**.

HoNOS is a simple measure used in adult services. It has 12 items scored from 0 to 4 where 0 is no problem and 4 is a serious problem.

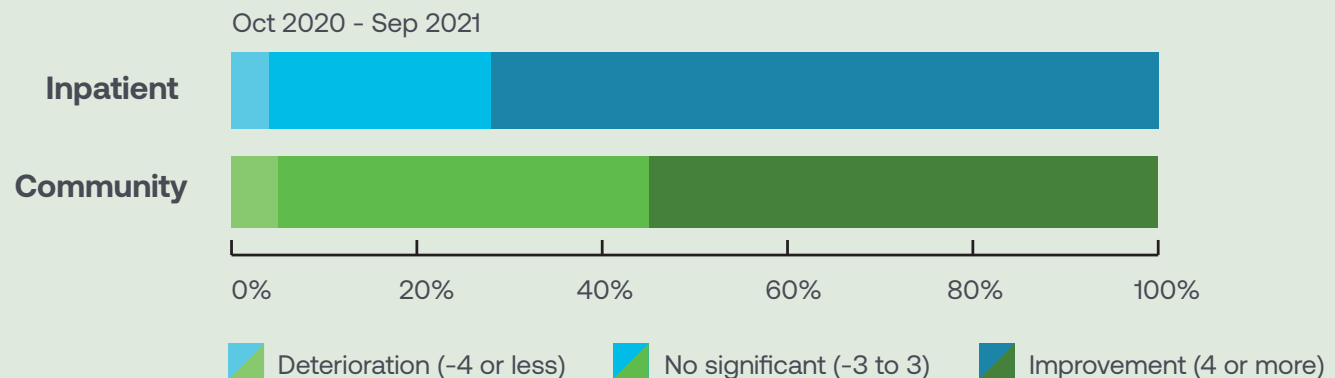

## Average total score, admission and discharge

Total score refers to adding all 12 items of HoNOS together. This is not matched pair (admission and discharge for the same tangata whai ora) data.

## Change in total score from admission to discharge

It uses matched pairs from admission to discharge for the same tangata whai ora.

## Top 3 items change between admission and discharge for percentage which are clinically significant

Percentage with a items score of 2 to 4. This is not matched pair data.
